ABOUT ZAGTRADER

ZagTrader was founded with one idea in mind namely. How we can use our extensive financial IT experience to deliver tangible business results enabling our clients in financial services to profit from the advanced use of technology. Over the years, ZagTrader has become a trusted platform for Brokerage, Investment Banks and Asset Managers. ZagTrader is a true three-dimensional platform (Multi-Asset Class, Multi-Market and Multi-Currency), that supports Equities, Futures, Forex, CFD's, Derivatives, Bonds, Options, Funds and ETFs, coupled with connectivity to more than 200 markets worldwide and 10 global support and development offices. Visit our website and request a demo today.

ABOUT ULLINK

ULLINK is a global provider of market leading multi-asset trading technology and infrastructure for buy-side and sell-side market participants, including NYFIX, one of the industry's largest FIX based trading communities. Trusted by over 150 of the world's top-tier banks and brokers, the company provides consistent, reliable access to the most current and innovative trading solutions available. Our multi-asset solutions allow you to connect to your desired markets, trade when and where you want, while being able to comply with global regulation. From our 10 offices covering all the major global financial centers, our team will advise on the best approach to address your challenges and deploy our technology.
